OBJECTIVE

Frontend-focused developer experienced in delivering production-grade, responsive web applications using React.js, Next.js, and modern UI frameworks, with a strong emphasis on performance, usability, and scalable component architecture.

SKILLS

Languages	Java, Python, JavaScript, SQL, C/C++
Backend	FastAPI, Node.js, Next.js, REST APIs, PostgreSQL, MySQL, Supabase, Clerk
Frontend	React.js, Tailwind CSS, GSAP, HTML/CSS, Three.js
ML / AI	LangChain, LLM Integration, ChatGPT API, FAISS (Vector Search), Embeddings
Problem Solving	Solved 110+ DSA problems on LeetCode.

EXPERIENCE

Freelance Frontend Developer — Remote	June 2024 – present
<i>Front-end Development</i>	
<ul style="list-style-type: none">Owned and delivered 3+ production-ready, client-facing, responsive web applications using React.js and Next.js, translating business and user requirements into scalable solutions and improving page load performance by up to 30% through optimized rendering, routing, and component architecture.Led requirements gathering and UI design discussions, built and maintained 15+ reusable Tailwind CSS components, and implemented GSAP animations, improving frontend development efficiency by 25% and increasing user engagement metrics by 18%.Owned end-to-end frontend integration and deployment, implementing and optimizing RESTful API integrations with lazy loading, memoization, and efficient data-fetching strategies to improve application scalability, performance, and reliability in production environments.	

PROJECTS

Beauty-Wellness Web Application source code link	July 2025
<ul style="list-style-type: none">Developed a full-stack MERN application with a decoupled architecture and RESTful APIs for beauty and wellness services.Implemented JWT-based authentication and authorization for secure user access and protected booking workflows.Built a service catalog and appointment booking system with real-time data persistence using MongoDB.Deployed a production-ready system by hosting the React.js frontend on Vercel and the Node.js/Express backend on Render, managing environment variables for secure cross-origin connectivity.	
Quick Cart – E-commerce Web App source code link	June 2025
<ul style="list-style-type: none">Built a responsive e-commerce platform allowing users to browse products, manage cart, and upload items.Integrated Clerk authentication for secure user login/signup and session management.Used Supabase for real-time database operations to store and fetch product details and user data.Handled image uploads and optimization via Cloudinary, with support for preview and CDN delivery.Implemented protected routes, dynamic product pages, and persistent cart functionality.	
Inglewood Urgent Care link	June 2023
<ul style="list-style-type: none">Built a responsive and accessible health services website using React and Tailwind.Implemented smooth scroll-based animations and visual transitions with GSAP, enhancing user engagement.Optimized UI for mobile and desktop devices, ensuring fast load times and seamless navigation.	

EDUCATION

Lovely Professional University	Phagwara, Punjab
<i>Bachelor of Computer Science and Technology, Minor: Web Development</i>	<i>Aug. 2023 – Currently</i>
Relevant Coursework: Data Structures and Algorithms (Leetcode) , Computer Networks, Web Development (MERN Stack)
